Dear Mr. Winston:

This letter acknowledges the Department of Housing and Urban Development's receipt of your Freedom of Information Act (FOIA) of January 29, 2016. Your request was received in the Department's FOIA Branch, in Washington, D.C., on January 29, 2016.

Pursuant to the FOIA, 5 U.S.C. 552(a)(6)(A)(i), once HUD properly receives a FOIA request, the Department has 20 working days within which to make a determination on the request unless unusual circumstances exist. Under unusual circumstances, such as an agency's backlog, or the need to examine a voluminous amount of records required by the request, HUD can extend the 20-day time limit for processing a request. Based upon HUD's experience and current inventory, it is estimated that it will take 30 to 45 days to complete processing of this request.

The Department will comply with this request to the extent permissible by law. Any records not subject to an exemption will be forwarded to you promptly upon the completion of HUD's search and review process. The request has been assigned to Mr. Howard Rosenberg for processing. If you have any questions regarding your request, please contact Mr. Rosenberg at (202) 402-5507.

DON'T WORRY!  
WE DON'T!

## FBI big: Distrust the gov't

FBI Director James Comey says you can't trust anybody — especially the US government.

"I believe that Americans should be deeply skeptical of government power — you cannot trust people in power," the director said in a surprisingly candid interview that aired on CBS's "60 Minutes" on Sunday night.

"The Founders knew that," Comey said, adding, "That's why they divided power among three branches, to set interest against interest."

Still, Comey insisted that his agency isn't watching us illegally.

"We don't do electronic surveillance without a court order," he said.

"We cannot read your e-mails or listen to your calls without going to a federal judge, making a showing of probable cause."

The FBI chief also displayed his open contempt for Apple and Google.

He talked about their development of new cell-phone software designed to make it impossible for the FBI — or anyone else — to crack a code devised by a user.

"The notion that we would market devices that would allow someone to place themselves beyond the law troubles me a lot," Comey said.

He added, "My sense is that we've gone too far when we've gone there."
